

M-learning sales pack activities

At work: Cleaning

Learn some of the communication and numeracy skills you need for a cleaning job

- **Cleaning methods: Find out more**
In this activity, learners listen to the types of instructions that they might be given when cleaning.
- **Practice 1**
In this activity, learners practise following spoken instructions.
- **Practice 2**
In this activity, learners practise following spoken instructions.
- **Check your skills**
In this activity, learners check their understanding of cleaning instructions.
- **Reporting faults: Find out more**
In this activity, learners read some key words used for describing faults.
- **Practice 1**
In this activity, learners practise using key words used for describing faults.
- **Practice 2**
In this activity, learners practise using key words used for describing faults.
- **Check your skills**
In this activity, learners check their understanding of key words used for describing faults.
- **Diluting liquids: Find out more**
In this activity, learners explore the maths involved in measuring and mixing liquids.
- **Practice 1**
In this activity, learners practise measuring and mixing liquids.
- **Practice 2**
In this activity, learners practise measuring and mixing liquids.
- **Check your skills**
In this activity, learners check their understanding of the maths they need when measuring and mixing liquids.
- **Words and symbols: Find out more**
In this activity, learners read words and symbols that they will see at work.
- **Practice 1**
In this activity, learners practise understanding words and symbols.
- **Practice 2**
In this activity, learners practise understanding words and symbols.
- **Check your skills**
In this activity, learners check their understanding of words and symbols at work.

Cleaning skills check

Screeners to check your literacy and numeracy skills for a job in cleaning

- **Cleaning skills check: Literacy part 1**
In this activity, learners answer 20 questions that test a range of reading and writing skills contextualised to the cleaning sector.
- **Cleaning skills check: Literacy part 2**
In this activity, learners answer 20 questions that test a range of reading and writing skills at an advanced level contextualised to the cleaning sector.
- **Cleaning skills check: Numeracy part 1**
In this activity, learners answer 20 questions that test a range of numeracy skills contextualised to the cleaning sector.
- **Cleaning skills check: Numeracy part 2**
In this activity, learners answer 20 questions that test a range of numeracy skills at an advanced level contextualised to the cleaning sector.

At work: Health and safety

Workplace health and safety information, including hazard analysis and fire safety

- **The working day**
In this activity, learners select verbs to complete sentences about the working day.
- **Health and safety at work**
In this activity, learners read about workplace health and safety and then test their understanding.
- **Fire safety**
In this activity, learners read about fire safety and then test their understanding.
- **Hazard analysis**
In this activity, learners read about the seven principles of HACCP.

Health care hygiene

Practise reading and understanding key hygiene information for work in health care

- **Snap game: Cleaning colour codes**
In this game, learners match items to do with colour coding for health and safety.
- **Waste disposal word match**
In this game, learners match specialist words with their definitions.
- **Bacteria quiz**
In this quick animated quiz, learners answer ten questions about bacteria.
- **Snap game: Know your pH**
In this game, learners match terms to check their understanding of key words and concepts to do with pH values.

Basic number skills

Entry Level numeracy activities, including telling the time

- **Match a word and a number 1**
In this game, learners practise reading numbers (0–10) as words and numerals.
- **Match a word and a number 2**
In this game, learners practise reading numbers (0–10) as words and numerals.
- **Calculator match symbols and names 1**
In this game, learners match words with calculator symbols.
- **Calculator match symbols and names 2**
In this game, learners match words with calculator symbols and abbreviations.
- **Fractions**
In this activity, learners find common fractions of a number of objects.
- **Analogue clock 2**
In this activity, learners read and understand times in half hours and quarter hours.
- **Analogue clock 1**
In this activity, learners read and understand times to the nearest five minutes.
- **Analogue clock 3**
In this activity, learners read and understand times to the nearest five minutes.
- **Analogue clock 4**
In this activity, learners read and understand times in half hours and quarter hours.

Becoming a parent

Quiz-style activities providing useful information for expectant parents and young families

- **Baby in the house**
In this quick animated quiz, learners answer ten questions about babies.
- **Cash crisis**
In this quick animated quiz, learners answer ten questions about family finance.
- **Food and drink**
In this quick animated quiz, learners answer ten questions about healthy eating during pregnancy.
- **Domestic life issues**
In this quick animated quiz, learners answer ten questions about domestic violence.
- **Healthy pregnancy**
In this quick animated quiz, learners answer ten questions about pregnancy.
- **Sexual health**
In this quick animated quiz, learners answer ten questions about sexually transmitted infections.

Clocks and time

Numeracy activities from Entry 2 to Level 1 about telling the time

- **Analogue clock 1**
In this activity, learners read and understand times to the nearest five minutes.
- **Analogue clock 2**
In this activity, learners read and understand times in half hours and quarter hours.
- **Analogue clock 3**
In this activity, learners read and understand times to the nearest five minutes.
- **Analogue clock 4**
In this activity, learners read and understand times in half hours and quarter hours.
- **24-hour clock**
In this activity, learners do calculations using hours and minutes.
- **Match digital and analogue**
In this game, learners match times shown on digital and analogue clock faces.
- **Snap game: digital and analogue**
In this game, learners practise recognising times shown in digital and analogue format

Driving

Activities to practise driving theory with embedded literacy and numeracy

- **Road sign quiz**
In this activity, learners practise recognising UK road signs.
- **Snap game: Driving**
In this game, learners match road signs and driving-related terms with definitions.
- **Build your own road sign**
In this activity, learners mix and match colours, shapes and symbols as they try to recreate real UK road signs.
- **Do you know your speed limits?**
In this activity, learners check their knowledge of UK speed limits.
- **Stopping distances quiz**
In this activity, learners are helped to use a simple algebraic formula to work out how long it will take a car to stop.
- **Fuel gauge**
In this activity, learners work out how much fuel is in a tank by calculating a fraction of the total capacity.
- **Mileage quiz**
In this activity, learners use a chart to work out distances between cities.

Beginning reading

Activities to practise letter recognition, word recognition and phonics at Entry 1

- **Match upper and lower case letters**
In this game, learners match upper case and lower case letters.
- **Rhyming pairs**
In this game, learners match rhyming CVC words.
- **Cleaning words and symbols: Find out more**
In this activity, learners read words and symbols they will see at work.
- **Words and symbols: Practice 1**
In this activity, learners practise understanding words and symbols.
- **Words and symbols: Practice 2**
In this activity, learners practise understanding words and symbols.
- **Words and symbols: Check your skills**
In this activity, learners check their understanding of words and symbols at work.
- **Parts of the body**
In this activity, learners practise reading words for parts of the body.
- **Parts of the face**
In this activity, learners practise reading words for parts of the face.
- **Match a word and a number 1**
In this game, learners practise reading numbers (0–10) as words and numerals.
- **Match a word and a number 2**
In this game, learners practise reading numbers (0–10) as words and numerals.

Literacy skills pack

Activities to help you get ready for the National Literacy Test

- **Homophones**
In this activity, learners complete sentences by choosing the correct homophone.
- **There, they're and their**
In this activity, learners complete sentences by choosing the correct word.
- **Drugs**
In this activity, learners develop their reading and vocabulary by answering questions on a text about drugs.
- **Paul's story**
In this activity, learners develop their reading and vocabulary by answering questions on a text about a young man's housing problems.
- **Literacy skills check**
In this activity, learners answer 21 questions that test a range of reading and writing skills.

ESOL skills packs

Activities to help you get ready for your Level 1 reading exam (National Literacy Test)

- **ESOL skills check**
In this activity, learners answer 21 questions that test a range of reading and writing skills.
- **Using verbs**
In this activity, learners choose the right present tense verb forms to complete the sentences.
- **A fashion designer**
In this activity, learners develop their reading and vocabulary by answering questions on a text about a fashion designer.

Measure it out

Contextualised activities to practise weighing, measuring and diluting (ratio)

- **Kitchen scales**
In this activity, learners practise reading measurements of weight from a scale.
- **Measuring jug**
In this activity, learners practise reading a scale on a 1 litre jug.
- **Diluting liquids (Fresh start): Find out more**
In this activity, learners explore the maths in measuring and mixing liquids.
- **Diluting liquids (Fresh start): Practice 1**
In this activity, learners practise measuring and mixing liquids.
- **Diluting liquids (Fresh start): Practice 2**
In this activity, learners practise measuring and mixing liquids.
- **Diluting liquids (Fresh start): Check your skills**
In this activity, learners check their understanding of the maths they need to measure and mix liquids.

Skills checks

Quiz-style screeners to check whether your maths and English skills are up to scratch

- **Quick check: Numeracy**
In this activity, learners answer 21 questions that test a range of numeracy skills.
- **Quick check: Literacy**
In this activity, learners answer 21 questions that test a range of reading and writing skills.
- **ESOL skills check**
In this activity, learners answer 21 questions that test a range of reading and writing skills.
- **Literacy skills check**
In this activity learners answer 21 questions that test a range of reading and writing skills
- **Numeracy skills check**
In this activity learners answer 21 questions that test a range of numeracy skills.

Lifestyle

Practise literacy and numeracy in the context of independent living skills and lifestyle issues

- **A fashion designer**
In this activity, learners develop their reading and vocabulary by answering questions on a text about a fashion designer.
- **Paul's story**
In this activity, learners develop their reading and vocabulary by answering questions on a text about a young man's housing problems.
- **Snap game: Compound words**
In this game, learners have to spot two words which go together to make a compound word.
- **Size does matter**
In this activity, learners multiply whole numbers and numbers with one decimal place to calculate area.
- **Work out your budget**
In this activity, learners round to the nearest £ and add or multiply to estimate costs.
- **Paint your room**
In this activity, learners work out area and estimate the amount and cost of paint needed.
- **Snap game: Match the words 2**
In this game, learners read two definitions and guess the word.
- **Snap game: Match the words 3**
In this game, learners read two definitions and guess the word.
- **Tile your floor**
In this activity, learners work out area and estimate the cost of tiling a floor.
- **Our gaff**
In this activity, learners watch an animation then try a quiz to practise key words for reporting problems with accommodation.

Health and safety

Useful health and safety information, including hygiene and fire action

- **The working day**
In this activity, learners read about workplace health and safety and then test their understanding
- **Food hygiene: The 4 Cs**
In this activity, learners read about cleaning, cooking, chilling and cross-contamination.
- **Fire actions**
In this activity, learners complete a text by choosing the right instruction words.
- **Toy marks**
In this activity, learners read about approval marks for toys.

ESOL

An ESOL screener and some grammar and listening activities for ESOL learners

- **ESOL skills check**
In this activity, learners answer 21 questions that test a range of reading and writing skills.
- **Using verbs**
In this activity, learners choose the right present tense verb forms to complete the sentences.
- **Listen to messages 1**
In this activity, learners listen to a telephone message to understand the important points.
- **Listen to messages 2**
In this activity, learners listen to a telephone message to understand the important points.
- **Listen to messages 3**
In this activity, learners listen to a telephone message to understand the important points.
- **Listen to messages 4**
In this activity, learners listen to a telephone message to understand the important points.

Health and fitness

Practise literacy and numeracy through activities with a healthy lifestyle theme (Entry 3/Level 1)

- **Know your food**
In this activity, learners practise reading charts about nutrition.
- **Are you safe in the sun?**
In this activity, learners read about sun safety and convert minutes to hours and minutes.
- **Drugs**
In this activity, learners develop their reading and vocabulary by answering questions on a text about drugs.
- **Snap game: Compound words 1**
In this game, learners have to spot two words that go together to make a compound word.
- **Snap game: Compound words 2**
In this game, learners have to spot two words that go together to make a compound word.
- **Snap game: Match the words 1**
In this game, learners read two definitions and guess the word.
- **Guideline daily amounts**
In this game, learners practise working out or estimating percentages.

Money and shopping

Contextualised activities about percentages and giving change to practise numeracy skills (mainly around Level 1)

- **Learn about percentages**
In this activity, learners read about percentages and then test their understanding.
- **Do some percentages**
In this activity, learners practise working out prices with percentage discounts.
- **Giving change (UK)**
In this activity, learners practise recognising UK coins and working out change.
- **Giving change (EU)**
In this activity, learners practise recognising European coins and working out change.

Cooking and eating

Reading and numeracy activities about kitchen know-how and diet information

- **Know your food**
In this activity, learners practise reading charts about nutrition.
- **Diet and pregnancy (same as Food and drink in Becoming a parent)**
In this quick animated quiz, learners answer ten questions about healthy eating during pregnancy.
- **Kitchen scales**
In this activity, learners practise reading measurements of weight from a scale.
- **Measuring jug**
In this activity, learners practise reading a scale on a 1 litre jug.
- **Food hygiene: The 4 Cs**
In this activity, learners read about cleaning, cooking, chilling and cross-contamination.

Holiday travel

Practise Level 1 literacy and numeracy skills through activities with a holidays and travel theme

- **Around the world**
In this activity, learners practise rounding to the nearest thousand, hundred and ten.
- **Snap game: World cities**
In this game, learners read match city names with facts about them
- **Are you safe in the sun?**
In this activity, learners read about sun safety and convert minutes to hours and minutes.
- **Giving change EU**
In this activity, learners practise recognising European coins and working out change.

Everyday numeracy

Contextualised Level 1/Level 2 numeracy practice activities

- **Kitchen scales**
In this activity, learners practise reading measurements of weight from a scale.
- **Measuring jug**
In this activity, learners practise reading a scale on a 1 litre jug.
- **Fuel gauge**
In this activity, learners work out how much fuel is in a tank by calculating a fraction of the total capacity.
- **24-hour clock**
In this activity, learners do calculations using hours and minutes.
- **Learn about percentages**
In this activity, learners read about percentages and then test their understanding.
- **Do some percentages**
In this activity, learners practise working out prices with percentage discounts.

Introduction to IT

An introduction to IT using a handheld personal computer

- **Snap game: Match the words 2**
In this game, learners read two definitions and guess the word.
- **Calculator match symbols and names 1**
In this game, learners match words with calculator symbols.
- **Calculator match symbols and names 2**
In this game, learners match words with calculator symbols and abbreviations.
- **Using the calendar**
This is a quick guide to using the calendar function on your PDA.
- **Using the calculator**
This is a quick guide to using the calculator function on your PDA.
- **Taking a photo**
This is a quick guide to using the camera function on your PDA.
